

What does he
THINK AND FEEL?

Polluting the
environment

Technology is
improving and
already is start
ruling the world

What does he
SEE?

News about
gas leakage
blast in citys

The configuration
are looks easy
but its hard to
make it success

Always
take the
precautions

What does he
SAY AND DO?

Sensors should
alert before
the incident
happens

Government
dont have
time to see
this issues

It is user
friendly

SomeBody
thinks its
useless

Maintain
ance is low

To Make the
process they
need more
people behind

What does he
HEAR?

It is very easy
to implement
and cost
efficient

GAIN

No need to
fear about
a leakage

Improve in
Domains

Saving
Some
Money

PAIN

Unwanted
loss of
people's life

Destroy of
Infrastruct
ure

Noise &
Sound
Pollution
